# Managed Print & Document Services

Managed document solutions are essential for modern businesses, ensuring efficient and secure handling of documents.

Ethos' Workplace Services offers a comprehensive solution which caters to diverse business needs.

Our solutions effectively address common pain points in document management, offering robust security, convenient access, and comprehensive analytics to enhance productivity and reduce costs. With flexible deployment options, they cater to the varied needs of modern businesses, making them a versatile and reliable choice for managed document solutions.

## Pain Points Addressed

### 1. Inconvenient Access and Connectivity:

Teams often struggle to connect to company printers and services, especially in remote or hybrid work settings.

### 2. Content Security:

Intellectual property loss due to unmonitored document handling is a significant risk.

### 3. Security and Access Control:

Ensuring secure and authorised access to sensitive data and services is a major business concern.

### 4. Lack of Reporting and Analytics:

Businesses need insights into document usage and workflow inefficiencies to optimise operations and reduce costs.

### 5. Mobile Device Compatibility:

The increasing use of mobile devices for work necessitates compatible printing solutions.

## How we can help

### Effortless Connectivity

Provides easy connection to multifunction printers from various devices, ensuring seamless operations.

### Enhanced Content Security:

Implements security workflows and print rules to prevent intellectual property loss and control print volume.

### Advanced Reporting and Analytics:

Includes detailed reporting and analytics tools, providing insights for cost savings and workflow improvements.

### Robust Authentication and Control:

Features flexible authentication methods and single sign-on capability, enhancing security and convenience.

### Mobile Printing Solution:

Offering comprehensive mobile printing options that are compatible with various devices and operating systems.

## Deployment Options

### On-Premise

It is ideal for on-premises, server-based print management, offering high security and productivity for mobile devices and workers.

### Cloud

This cloud-based solution is perfect for organisations with limited IT support. Offering ease of use and comprehensive fleet monitoring.
